Dave –

Do you think there is value in you talking informally with Craig Bias, the Navy's Hunters Point consultant, about the building RG evaluation? It would be an opportunity to follow up on last week's call one on one.

If you think a call would be worthwhile, you have a green light from EPA and the Navy to call Craig directly on his cell. Or, if you want to discuss first, give me a call. Craig's contact info is:

Subject: [Non-DoD Source] Call?

Derek –

I thought it might be useful to have David Hayes from the Army Corps and Craig Bias talk directly about the building RGs to see if they have other ideas worth pursuing. David can't speak for EPA but I think it would be useful. Would it be OK for Dave to call Craig?
